

GLOBAL SCIENCE, TECHNOLOGY, AND SOCIETY

Directors: [Daniel Nuckols](#) and [Jack Mealy](#)

There is a complex relationship between science and society, and this relationship is global in scope. The Global Science, Technology, and Society Program explores this relationship both in contemporary societies and from an historical perspective. The goals of the minor are to:

1. Understand the practice and philosophy of science
2. Explore how societal and historical forces shape, and are shaped, by science, its boundaries, its implementation, and its use
3. Examine ethical questions about the use of science and technology
4. Explore multicultural and international approaches to science in a global context, including how differences of culture, class, gender, and ethnicity affect how science is practiced

The minor in global science, technology, and society is designed to foster awareness of the interrelationship of global culture and the changing nature of scientific knowledge and technology. The quest for scientific knowledge is universal, yet both the advances in knowledge and the implementation of technologies can be properly understood only in their multicultural context. Historical and contemporary studies of the relationship between science and society help to moderate our parochial conceits. Such studies create conditions that allow international problems like global warming, pandemic disease, secure telecommunications, militarization of space, economic inequality, and environmental degradation to be addressed in true cooperative and informed spirit.

A minor in global science, technology, and society consists of:

Required Course (1 course)

_____ GSTS 250 Intermediate Topics in Global Science, Technology, and Society

Global Perspective (1 course)

_____ Course Prefix and Number: _____

Electives (3 courses)

- _____ ANTH 263 Whose Amazon?
- _____ BIOL 101 Influenza – From 1918 until 2009
- _____ BIOL 101 Microbes and Society
- _____ CHEM 101 Women and Science
- _____ BIOL 246 Eukaryotic Pathogens
- _____ ECO 234 Economic Development
- _____ ECO 270 Economic History
- _____ ECO 485 History of Economic Thought
- _____ ENG 252 Literature and Science

____ ENVS 135 Introduction to Environmental Studies
____ ENVS 230/330 Globalization
____ ENVS 479 Environmental Policy
____ PHIL 205 Ethics
____ PHIL 207 Environment Philosophy
____ PHIL 209 Ethics and Medicine
____ PHIL 306 Knowledge and Reality
____ PHIL 307 Environmental Philosophy
____ PHIL 310 Mind and Language
____ PHY 101 The Day After Tomorrow (Global Climate and Extreme Weather)
____ PSCI 240 Introduction to Asian Politics
____ PSCI 430 International Relations Theory
____ PSY 214 Psychopharmacology
____ PSY 340 Cultural Psychology
____ REL 220 Illness, Medicine, and Healing in Asian Religions
____ SCI 201 All sections
____ SCI 202 Axioms and Atoms
____ GSTS-related International Experience and Reflections Presentation

Other Considerations When Planning for this Minor:

- Other courses may be appropriate and relevant to students' specific interests and may be included with director's approval.

Total Credits Requirement = 5 course credits

COURSES

GSTS 250 Intermediate Topics in Global Science, Technology, and Society

Interdisciplinary subjects dealing with the interrelationship of global culture and the changing nature of science and technology. May be repeated when topics vary. No prerequisites. (Each spring)

GSTS 260 Intermediate Directed Study

Student investigation of topic of interest working in collaboration with a faculty member resulting in significant oral and written work. See On-Campus Learning Opportunities for more information. PREQ: Freshman January term or Sophomore standing. Special permission required. Offered in variable course credit from 0.25-1.00.

GSTS 350/450 Advanced Topics in Global Science, Technology, and Society

Interdisciplinary subjects dealing with the interrelationship of global culture and the changing nature of science and technology. May be repeated when topics vary. PREQ: Global Science, Technology, and Society 250 or equivalent. (Each fall)

GSTS 460 Advanced Directed Study

Student investigation of topic of interest related to the major or minor working in collaboration

with a faculty member resulting in significant oral and written work. See On-Campus Learning Opportunities for more information. PREQ: Junior or Senior standing. Special permission required. Offered for variable course credit from 0.25-1.00.

GSTS 490 Independent Study

Student-driven independent work to produce a high quality body of work such as paper, report, art project, etc. See On-Campus Learning Opportunities for more information. PREQ: Junior or Senior standing. Special permission required. Offered in variable course credit from 0.25-1.00.

GSTS 491 Honors Thesis in Global Science, Technology, and Society

Extensive independent study in the major in a topic of special interest culminating in a bachelor's thesis with oral examination by thesis committee resulting in a bachelor's degree with Honors upon completion. See Departmental Honors Program for more information. Completed in last three semesters before graduation. Offered for variable course credit from 1.00-2.00.

GSTS 492 Independent Study Off-Campus/NSOC

Student-driven independent study in a topic related to the major completed at an off-campus site. See Off-Campus Learning Opportunities for more information. PREQ: Junior or Senior standing. Special permission required. Offered in variable course credit from 0.25-1.00.
